Unique Yellow Housing

Dear friends, Sinowatcher Technology is always committed to design new products and manufacture good quality products to meet customers' needs. With the new needs of the markets, yellow housing is favored in many countries in the world now. And I'm so glad to tell you our yellow housing has got high appreciation from our customers, especially in market of Argentina and Mexico.

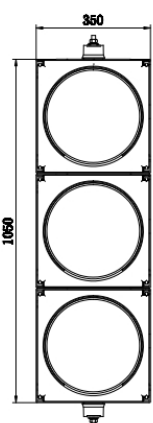

Here so glad to show you the main advantages of our yellow housing.

★ Yellow color is very special, obvious and elegant, color code RAL1003.

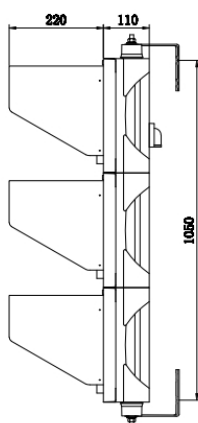

★ The housing is made of polycarbonate. It's sturdy, waterproof and anticorrosive, even more than IP55. It can work well in poor weather conditions.

★ It can compatible with our traffic light modules with clear lens, cobweb lens and small lens. We have 200mm, 300mm modules with 3 units for you choices. And you will find every detail about the size and structure from below 300mm size drawing.

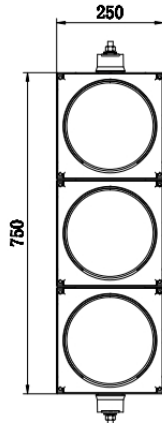

Dear customers, if you have any interest and question about our yellow housing, please contact us at once. We' ll try our best to provide best service and product.
