

## Peru Guests Visit Sinowatcher

With the rapid development of **Sinowatcher**, there are more and more people are interested to our products. Recently, over 20 guests from Peru came to visit **Sinowatcher** and with high remarks.

At the first met, our general manager and sales manager exchanged the business card with clients, and expressed our sincere welcome to our guests. From the pictures we can see that all of them were chatting happily and breezily.

At the meeting, we did a PPT introduction of **Sinowatcher** and a brief introduction of the Peru guests first. Then, we exchanged the market information with each other and also raised some questions and suggestions. At last, we showed our warehouse, factory, test room and different branches of our company to Peru customers.

Both of us enjoyed a fantastic time and Peru guests showed their strong interested to us, so they said they will keep in touch with us all the time and come to visit us in the future.

Now, do you have any idea to join our big family? And if you do, we are always here waiting for you.
